What is PuliGo?

PuliGo (\$PULIGO) is a community-driven meme token built on the BNB Smart Chain. Inspired by the Puli — a rare Hungarian herding dog known for its distinctive corded coat, unwavering loyalty, and remarkable strength — PuliGo represents a new breed of meme token: one that's transparent, fair, and built to last.

In a market saturated with pump-and-dump schemes, PuliGo stands apart with a 100% fair launch, verified smart contract, and a community-first philosophy. No presales. No insiders. Just a pack of believers building something together.

 **Our Mission:** Build the most loyal and transparent meme token community on BNB Chain — where every holder is equal and the pack always comes first.

Why PuliGo?

The Problem

The meme coin space is plagued with rug pulls, unfair insider allocations, abandoned projects, hidden dev wallets, and zero transparency. Investors get burned repeatedly.

The PuliGo Way

100% fair launch with no presale. Verified and transparent smart contract. Community-owned with real governance. Active development and a clear long-term roadmap.

Verified Contract

Fully verified on BscScan. Open source. Nothing to hide.

Community Owned

No shadowy teams. The community IS the team. Every voice matters.

Transparent Tax

Simple 3/3% buy/sell tax. No hidden fees. No surprises.

Real Roadmap

Utility development, CEX listings, and ecosystem growth planned through 2027.
